

**Phil Miller, Custodian, Building & Grounds**, was recommended for a Good Apple Award by Shelly Kelly, Interim Co-Coordinator of Curriculum, District Office Building, because of the following: I would like to nominate Phil Miller for a Good Apple Award. Phil is a second engineer at the DOB with Russ. While I do not know Phil really well as of yet, I do so appreciate all he has done for the newly formed interim curriculum department and myself to make our transition a smooth one. Phil helped move us in one day. It was awesome. What has impressed me the most, though, is that while Phil is doing his other duties, if he notices me doing something that may require his assistance, he just jumps in and asks. He has been very observant of our needs. I would like Phil to know how much I appreciate him. He has helped me tremendously this summer. I believe he is very deserving of a Good Apple Award.

**Cheri Warila, Volunteer, Lincoln Elementary**, was recommended for a Good Apple Award by Pat Rice, Teacher Aide, Lincoln Elementary, because of the following: Cheri has spent countless hours volunteering her time and energy to Lincoln Elementary School. She has unselfishly given her time helping count and sort the print center orders in the week before school started. I know I sure do appreciate her efforts and along with the teachers. This project really helps get the new school year ready for a great start.

**Ande Brinka, Kindergarten Teacher, Meadowlark Elementary**, was recommended for a Good Apple Award by Lara Clark, Parent, because of the following: Mrs. Brinka creates an amazing classroom environment that provides structure, learning, and love to all kindergarteners as they begin their elementary school journey. Each day she encourages greatness and expects the best from each child. She provides the building blocks that ensure students want to attend school and achieve success. She is an integral part of what makes Great Falls Public Schools great!
