

Great Falls Public Schools Good Apple Award Recipients

Joseph Yeisley, former teacher and volunteer, East Middle School, was recommended for a Good Apple Award by Tom Moore, Superintendent, District Offices because of the following: I would like to recognize the following individual for his outstanding actions to potentially save a student's life. On November 2nd Joseph observed a student in the lunchroom choking on food. Joe rushed to the student's aid, assessed the situation, and administered the Heimlich maneuver, dislodging some food from the student's throat. The student was taken to the hospital, treated and released. We are blessed to have Mr. Yeisley working with youth in our community and we are especially grateful to him for his swift and decisive action to provide aid to this student at East Middle School.
