2 Homework

3 Homework is a constructive tool in the teaching/learning process when geared to the needs and abilities
4 of students. Purposeful assignments not only enhance student achievement, but also develop self-
5 discipline and associated good working habits. As an extension of the classroom, homework must be
6 planned and organized, must be viewed as purposeful to the students; and should be evaluated and
7 returned to students in a timely manner.

8 Homework is required at all grade levels. Homework should be an application or adaptation of a classroom
9 experience, and should not be assigned for disciplinary purposes.
