2 Prevention of Disease Transmission

3 All District personnel shall be advised of routine procedures to follow in handling body fluids. These
4 procedures developed in consultation with Great Falls Public Schools medical personnel, shall provide
5 simple and effective precautions against transmission of diseases to persons exposed to the blood or body
6 fluids of another. These procedures shall be standard health and safety practices. No distinction will be
7 made between body fluids from individuals with a known disease or infection and from individuals
8 without symptoms or with an undiagnosed disease.
