

1 **8000 NON-INSTRUCTIONAL OPERATIONS**

2 Goals

3 In order for students to obtain the maximum benefits from their educational program, a complex set of
4 support services must be provided by the District. These services are essential to the success of the
5 District, and the staff that provides them is an integral part of the educational enterprise. Because
6 resources are always scarce, all assets of District operations, including non-instructional support services,
7 shall be carefully managed in order to obtain maximum efficiency and economy. To that end, the goal of
8 the District is to seek new ways of supporting the instructional program that shall maximize the resources
9 directly available for students' learning programs.

10 The Board recognizes the importance the physical plant plays in enhancing the instructional program. The
11 Board shall develop a program to maintain and/or upgrade the buildings and grounds of the District.
12 Facilities represent a long-term investment of the District. The functional utility of such facilities can be
13 increased with a regular maintenance program monitored by staff.

14 The Board further recognizes the importance of planning in order to provide the anticipated facility needs
15 of the future. The District will review demographic factors as changes make such reviews necessary.

16 Policy History:

17 Adopted on: July 1, 2000

18 Revised on: June 9, 2014
